### Practical strategies to support your child

- Use 'How to Pass Guide' for revision strategies.
- Practise past paper questions and self-mark using marking instructions.
- Identify areas of strength and areas for development.
- Review over areas for development and seek help if required.
- Use revision tools such as BBC bitesize, JABChem, MissAdamsChemistry, mind-maps etc. to consolidate knowledge (see links).
- Attend masterclasses and study support (see timetable on school website and app).

### How can you support your child?

- Encourage your child to build a study plan <https://www.sqa.org.uk/sqa/68908.html>
- Provide a suitable quiet space.
- Revise with your child or ask your child to teach you.
- Encourage your child to take regular breaks.
- Encourage your child to have a healthy work/life balance.
- Encourage your child to attend masterclasses and study support as required.
- Access the whole school study skills sessions available on Family Learning Hub.
